

Memo Express Alpha Pager

Communications on the move

Ultimate Flexibility

The Motorola Memo Express alphanumeric CPP pager is a 1-line dot-matrix scrollable display. The Memo Classic allows you to quickly and easily read, delete or save messages. The unread message reminder alert ensures you never miss a message.

Cost Effective

The TH Comms CPP range allows you to purchase the pager pre-activated on the PageOne network. With your own unique CPP number, pay a once-off purchase price and benefit from no ongoing monthly rental charges.

Greater Versatility

For ultimate discretion the Memo Express can be programmed to alert you silently to an incoming message or you can choose from a range of audible alerts and melodies.

Faster Communication

The Memo Express is connected to the PageOne network. You can rely on your message coming through in seconds because PageOne uses advanced satellite technology to send the message to transmitter sites across the country and through to you.

Easy To Use

To send a message, callers simply dial your pager number; they will automatically be connected to the PageOne Call Centre and asked to leave a message.
